HS2 NORTH WEST DROP-IN EVENTS
April 2016

High Speed Two (HS2) is the new high speed railway for Britain. The Government has already proposed a route between London, the West Midlands and Crewe, and it is due to announce a route between Crewe and Manchester this autumn.

We would like to invite you to a drop-in surgery about HS2.

About us

HS2 Ltd was set up by the Government to deal with the design, engineering and technical requirements of building the railway. But we have another important role: we make sure that if people may be affected by the Government's plans, they understand what to expect and how we can help.

HS2 in your area

Plans for the new railway between Crewe and Manchester are at an early stage. However, based on HS2's plans for the London to West Midlands and West Midlands to Crewe routes, we can explain what the next steps will be, and how you can have your say in future.

At this stage, we will not be able to provide any further information about where the route between Crewe and Manchester will run. As soon as we have this information, we will make it available to you on our website and through your local representatives. We will also hold more in-depth information events and a public consultation after the route announcement.

These drop-in surgeries provide an opportunity for you to find out more about the project and what is likely to happen after the route announcement. We will answer any questions as fully as we can.

I am Raj Chandarana, your local stakeholder manager. I am based in Manchester and cover the area north of Crewe up to Greater Manchester. I look forward to meeting you at one of the drop-in surgeries.

Come to a drop-in surgery near you

Everyone is welcome to our local drop-in surgeries. You can book a time to speak with us by emailing your preferred time, and short summary of your question, to: NorthWestEngagement@hs2.org.uk.

This will be an opportunity to have a private conversation about how HS2 may affect you and your community. We look forward to seeing you.

We will also hold more in-depth information events after the route announcement
